Coming January 6, 2020
FOR EMPLOYERS
What is the FMCSA Commercial Driver’s License Drug and Alcohol Clearinghouse?

A secure, online database that will give employers and other authorized users real-time information about commercial driver’s license (CDL) and commercial learner’s permit (CLP) holders’ drug and alcohol program violations.

The Clearinghouse will improve safety on our Nation’s roadways by giving employers access to information they need to make informed safety decisions about which employees to place in safety-sensitive functions, including operating a commercial motor vehicle (CMV).

Why register this fall?

Registering this fall is the first step in ensuring you and your company will be ready when the Clearinghouse is operational on January 6, 2020.

Once you are registered, you will be able to take the following actions in the Clearinghouse prior to implementation:

- Verify your information. If you currently have a USDOT Number, the Clearinghouse will pull your contact and company information from other FMCSA systems. Register early to verify this information is up-to-date.
- Designate your C/TPA. If you work with one or more consortia/third-party administrators (C/TPAs), you must designate them in the Clearinghouse before they can access the Clearinghouse on your behalf. This is required of all owner-operators (employers who employ themselves as CDL drivers).
- Invite Assistants. Send invitations to other employees who will access the Clearinghouse on your behalf, allowing them to register as part of your company or organization.
- Select and purchase a query plan. Employers will pay a fee when querying the Clearinghouse for current and prospective employees’ drug and alcohol program violations. Learn about the pricing options and select the one that works best for your business needs.

How will employers use the Clearinghouse?

Beginning January 6, 2020, employers will be required to:

- Report drug and alcohol violations. This will include alcohol test results with a concentration of .04 or greater, refusals to take an alcohol or drug test, as well as actual knowledge of a violation.
- Employers will also report negative return-to-duty (RTD) test results and the successful completion of a driver’s follow-up testing plan.
- The information above must be reported by the close of the third business day after the employer is informed.
- Conduct queries to check if prospective employees are prohibited from performing safety-sensitive functions, such as operating CMVs, due to an unresolved drug and alcohol program violation.
- Employers are also required to query all current employees at least annually. All queries require driver consent.
- Until January 6, 2023, conduct both electronic queries in the Clearinghouse and manual, offline inquiries to previous employers for pre-employment driver investigations.
